DETAILED ACTION

1. Applicant's arguments, see remarks, filed 11 May 2007, with respect to the combination of Rowe, Legall, and Matthews have been fully considered and are persuasive. The rejection of claims 1, 3, 6, 8, 9, 12-54, 58-60, 62, 63, and 66-71 has been withdrawn.

Allowable Subject Matter

2. Claims 1, 3, 6, 8, 9, 12-54, 58-60, 62, 63, and 66-71 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Prior art of record fails to teach or reasonably suggest a single graphical user interface with categories, channels related to a represented category, and individual content items including at least interactive data, wherein if the interactive data is selected, then the channels and interactive data are both displayed, along with the window displaying the representation of the content items associated with a channel upon selection of the channel by the user.

Whereas the prior art has established interactive data, it fails to teach or suggest providing selected interactive data within the same window along with a representation of the set of channels, as captured in the applicant's argument.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
